## SAP COE

The Business Process Engine

- Manages core processes: PTP, DTR, OTC, RTR.
- Key Modules: MM, SD, FI/CO
- Future Vision: "Connect PPG" with S/4HANA for a modern, agile enterpris.

## KEY INSIGHTS

- **Industry vs Academia:** Real-world scale demands cloud tools & teamwork
- **Strategic ICT Role:** Technology drives business growth & innovation

## OUR REFLECTION

This industry talk transformed our view of IT from a support function to a strategic driver. We saw how real-world systems handle terabytes of cloud data, requiring teamwork and advanced tools to handle it. Most importantly, we learned the technology professionals are essential partners in creating business value and driving sustainability, inspiring us to bridge theory with practice for meaningful impact.

## PPG'S MISSION

Technology With Purpose

Enabling PPG's 2030 sustainability goals  
Protecting and beautifying our world

## EXECUTIVE SUMMARY

The talk revealed how PPG's digital core-Data Analytics, Global Infrastructure, and SAP integrates to drive a global enterprise. We saw how these technologies transform raw data into business intelligence, enable seamless worldwide operations, and streamline core processes, proving that IT is the strategic engine of modern business.
